

Professional Profile

---

Product Designer with 13+ years of experience designing complex SaaS platforms and data-driven systems. Specializes in simplifying workflows, improving user journeys, and delivering scalable design solutions in fast-paced environments.

Combines strong visual design with product thinking and AI-driven workflows.

Professional Experience

---

UI/UX Designer - Nifty Technologies Ltd. | 2022-2025

- Led end-to-end design of complex SaaS platforms, including dashboards, workflows, and data visualization systems
- Simplified complex user flows, improving usability and reducing friction across key product journeys
- Designed scalable UI systems to support rapid product iteration and consistency across the platform
- Integrated Web3 and DeFi concepts into dApps, including dynamic reward mechanisms and blockchain-based interfaces

Graphic Designer - Climax Studio Ltd. | 2019-2022

- Led branding and visual direction for multiple clients across digital and print
- Developed full brand identities from concept to execution
- Created marketing assets aligned with business goals and brand positioning

Freelance Product & Brand Designer | 2014-Present

- Designed end-to-end digital products and brand identities for startups and entrepreneurs
- Built UX flows, UI systems, and responsive websites tailored to business needs
- Managed full design lifecycle independently, including client communication and delivery
